Denise and Jane,

I will defer to your judgment as to whether you think it would be helpful to share any of this with Meghan Cassidy so she has some context for Tim's email? I don't think it's appropriate for me to send it to her.

I am also adding to this email a document from the Nantucket website which Tim references in his email to the FAA: <https://www.ack-pfas.com/>. It shows some of PFAS detections in private wells close to the airport. There's a lot more information on the website.

Thanks,
Kira

Jane and Denise,

Attached is our letter sent in January of this year and the response to our comments (they start on Page 32 of Response to Comments document).

Thanks,
Kira
